Kampolo Tomas Vaino Amunyela

Software Engineer & IT Specialist

Windhoek, Namibia · kampolotomasva@gmail.com · +264 81 850 3687 · linkedin.com/in/kampolo-tomas-8453b129b · kampolo-tomas-website.netlify.app

PROFILE

Informatics graduate building mobile, web and backend software with React Native, Node.js and Python, on a foundation of IT support, networking, databases and applied AI. Currently a software engineer on a work-integrated-learning placement.

EXPERIENCE

Software Engineer (Work-Integrated Learning) Jul 2026 – Present

Kellerman ICT — Janeebra platform, Windhoek

- Built mobile features in React Native and Expo, including in-app password change and dark mode aligned to the web design system.
- Contributed to a polls feature across mobile, web, admin and API, and to mobile performance work.
- Developed backend REST APIs and authored Firestore security rules for role-based access control.
- Created an automated API security test suite in pytest.

IT Support Specialist (Freelance) Jan 2021 – Present

Independent Contractor, Windhoek

- Delivered hardware maintenance, network configuration and system administration for individuals and small businesses.
- Administered Microsoft 365: user accounts, permissions, Azure AD, Teams, SharePoint and OneDrive.
- Troubleshot TCP/IP, DNS, DHCP, VPN and email across Windows, macOS and Linux.

General IT & Administration Assistant 2020 – Present

Benito Trading Enterprises, Outapi / Windhoek

- Set up and maintained equipment, high-volume printers and office systems.
- Produced graphic design and branded materials for clients.

EDUCATION

Bachelor of Informatics Final year, 2026

Namibia University of Science and Technology (NUST), Windhoek

Business Intelligence & Analytics, Data Analytics, Database Programming, Information Systems Security, Systems Analysis & Design, Data Networks, Website Development.

National Senior Certificate (Grade 12) 2020

Ruacana Vocational Senior Secondary School

SELECTED PROJECTS

Multi-channel chatbot platform 2026 · Personal

Chatbot platform with a visual flow builder, AI replies, shared inbox and public API (Node.js, Express, SQLite). Two-factor login, hashed API keys, signed webhooks. Main author, built with Claude Code; channels tested with mocks, not yet live.

Patient Records Data Management System 2025 · University

Relational database prototype modelled on DHIS2 structures, with role-based access control, data-entry forms, query reports and a backup and recovery procedure.

Automated Network Uptime Monitor 2025 · University

Python tool that pings critical nodes, emails alerts on failure, logs uptime history to a database and produces daily availability reports.

IT Infrastructure Security Audit 2025 · University

Audit of a simulated enterprise network: found access-control and compliance weaknesses, applied hardening and defined incident response procedures.

CERTIFICATIONS

MIT Open Learning — Universal AI Programme: 19 course certificates (Feb–Jun 2026) covering Python, data analytics and machine learning, neural networks, deep learning and computer vision, large language models, LLM-based AI agents, multimodal AI, prescriptive AI, explainability and AI ethics.

HP LIFE (IT for Business Success, Customer Experience for Business Success, Social Media Marketing, Jun 2026); Simplilearn Project Management 101; IT Customer Support Basics.

SKILLS

Software: TypeScript, JavaScript, Node.js, React, React Native, Expo, Python, Next.js

Data: PostgreSQL, MySQL, SQLite, Firebase / Firestore, business intelligence

Security & IT: Access control, API security testing, Microsoft 365, networking (TCP/IP, DNS, DHCP, VPN), hardware support

Tools: Git, pytest, Vitest, Claude Code

COMMUNITY & LANGUAGES

Member, ISACA Windhoek Chapter. Team leader, NUST Capital Edge — NSIC 2026 stock trading competition.

Languages: Oshindonga, English, Afrikaans.
